NEWSLETTER

JULY - SEPT 2025

WWW.MECSINDH.GOV.PK

DATE: 1ST NOVEMBER 2025

TOP NEWS

- From 1st July to 30th September 2025, the M&E Cell conducted 351 site-monitoring visits across provincial departments. The largest shares were to Local Government (88 schemes) and Works & Services (55 Schemes), alongside visits in Health, Irrigation, Public Health Engineering and other sectors.
- By asset type, these visits covered 150 roads/bridges & paving works, 55 education facilities (schools/colleges/universities), and 39 water & sanitation schemes (water supply, sewerage, drainage), with additional checks of health facilities, heritage sites and multi-sector projects. All visit findings were verified on-ground and published in FILMS.”
- Across the schemes monitored this period, the published schemes cost Rs 105,624.238 million – i.e., ≈ Rs 105.624 billion.

MESSAGE OF CHAIRMAN, P&D BOARD

Monitoring and evaluation are the catalysts that initiate and sustain an impact. By converting data into timely information, M&E enables us to plan more effectively, hold individuals accountable, and maintain the focus of initiatives on outcomes that are important to public.

The P&D Board utilises MEC as an integral component of the project cycle. Utilising their robust monitoring and learning cycles, teams are capable of completing their tasks within the designated timeframe, budget, and to the approved standards. We are establishing a culture in which openness promotes efficiency and the lessons learnt are used to enhance performance by establishing digital ecosystem and evidence based decision making as guiding principle.

MESSAGE OF DG (M&E CELL)

It is an honour to lead the Monitoring and Evaluation Cell at this important phase of transformation. MEC works at the heart of evidence based governance since it makes sure that every public rupee invested leads to meaningful progress for the people of Sindh. We want to make people more awarded by making our activities more open, and create a culture of result based performance.

We will keep working further to build technologies that transfer what we learn from monitoring into real changes in sustainable development.

NEW INITIATIVES

Approval by Planning and Development Board

- 1.Scheme Selection Criteria (SSC)
2. Separate Field Monitoring Visit Reporting Formats for Infra, Social and Production Sectors.
- 3.Launching of M&E Cell’s New Website by Chairman P&D Board

Digital Asset Monitoring Initiatives

- Use of Drones
- GIS and RS based monitoring (App and Dashboard)

CONSTRUCTION OF COMPOUND WALL, MARBLE FLOORING AND REPAIR RENOVATION OF DARGAH PIR HAJIMEHMOOD SHAH VILLAGE KANIYA KALOHORA TALUKA KANDIARO.

TRAINING & LECTURES

Director MIS, attending this seminar in China, from September 9th to 29th was an incredible opportunity to explore the powerful synergy between AI and e-commerce through a packed schedule of lectures and company visits across Qingdao, Shenzhen, and Zibo.

The curriculum provided a forward-looking perspective on global trade, emphasizing how AI enhances efficiency in marketing, logistics, and customer experience. It was a profoundly enriching journey into the future of digital commerce.
